The dreaded GFC seems to have abated considerably, as fashion and fabric fairs are crowded with new and existing labels.

The look for summer in the Northern Hemisphere continues to focus on drape using rayon and polyester spandex knit fabrics such as our rayon spandex RASP, viscose spandex VISP and our polyester SLINK .

Some designers are trying to break out of the standard basic shades and introducing gelato shades of coral, aqua, orange, yellow and lime.

Glitz is *glitzier* than ever. It comes in the form of shiny zippers, zipper tape embroideries or diamante and stud motifs and epaulets, (*French for on the shoulder*), are the latest craze and we have a wide selection in different sizes with dangling chains, studs and sequins.
